

OneSC Announcement
January 7, 2004

I am pleased to announce that Secretary Abraham approved the Office of Science Restructuring (OneSC) on January 5. The Secretary's approval clears the way to formally announce our reorganization and to plan for implementing our new structure. We plan to roll out OneSC in a Town Meeting via a televideo conference for all SC employees after our collective bargaining obligations have been met. I am personally working with Headquarters Union Leadership to meet those obligations.

I know you are anxious to get more information. You will be notified when a date has been selected for the Town Meeting and you will also receive information about the reorganization prior to the Town Meeting for your review. Stay tuned.

Jim Decker
Principal Deputy Director
Office of Science
